The Battle of Neighborhoods

Where would you like to open a Restaurant in New York?

Introduction/Business Problem:-

Let's say someone wants to open a New Restaurant in New York. What would be an ideal place for the same? The choice of place should consider large customer base, profitability, other nearby restaurants, etc.

The target audience would be the businessmen who would like to open a restaurant in New York.

Data Section:-

Data for this analysis will be referred from:-

1. FourSquare API
2. NYU Spatial Data Repository

FourSquare API will be used to fetch information around nearby places like Restaurants, pub/bars, Shopping Complex, Cinema Hall, etc. Whereas, NYU Spatial Data Repository will be used to fetch the neighborhoods of the New York city.
